

Trans Equality Together Coalition

Proposed by VP for Equality & Citizenship

CN Notes:

Trans and non-binary people face many barriers in Ireland in the areas of discrimination, harassment and healthcare. Students' Unions have been advocates for the community leading on implementation of gender neutral toilets and many SUs joining the Irish Trans Writers Union boycott of the Irish Times newspaper.

CN Notes with regret:

The Trans and Nonbinary community have been under intense unwarranted media attention as well being targeted by recent developments in sporting organisation.

CN Therefore Mandates:

The Union of Students in Ireland to join the Trans Equality Together coalition led by BelongTo, LGBT Ireland and TENI (Trans Equality Network Ireland)

CN Further Mandates:

The VP for Equality & Citizenship and VP for Welfare to attend media training run by Trans Equality Together and/or TENI in order to be able to represent trans issues in the most update to date and correct way possible.
